Profile

Two words that describe me are IT and technology. It brings me joy when I can help people make their everyday tasks easier through the use of technology. I do this with passion and love for IT. In my free time, I enjoy spending time with my smart home and playing soccer.

Employment History

Technical Consultant Modern Work and Security at PCI, Haaksbergen

NOV 2023 — PRESENT

In my role as a Technical Consultant for Modern Work & Security, I guide clients on their journey to the Microsoft Cloud (M365 and Azure) and support them in enhancing their cloud competencies. My expertise includes cloud architecture, establishing secure collaboration environments, identity and access management, device management, and modernizing apps & applications. In addition to delivering effective solutions, I also provide documentation and conduct training/inspiration sessions for end users in the areas of cloud workspaces, infrastructure, governance, security, and compliance.

Architect Modern Work and Security at Motion10, Rotterdam

APR 2023 — NOV 2023

As a Modern Work & Security Architect, I guide clients on their journey to the Microsoft Cloud and in professionalizing Cloud Competence. I focus on Cloud Architecture to achieve a secure collaboration environment and modernize apps & applications. Through inspiration sessions for organizations and assisting them in making decisions regarding strategy, configurations, and migrations, I also conduct workshops on the Cloud workplace, Infrastructure, Governance, and Security & Compliance.

Consultant and Teamlead Cloudservices at de Rolf groep, Enschede

2018 — 2023

Specialized in consulting on Modern Work solutions like Microsoft 365 and Google Workspace. I guided school boards on a daily basis in transitioning to the Cloud with Microsoft 365 and Google Workspace, or taking them a step further in their Cloud strategy by implementing the Zero Trust framework. In my role as team lead, I managed the team responsible for the daily operations of implementing, migrating, and configuring Cloud services such as Microsoft 365, Google Workspace, and JAMF.

IT Consultant at WAM&VanDuren, Winterswijk

2016 — 2018

In the role of IT Consultant, I supervised various ICT projects within WAM&VanDuren and BINX Smartility. This included tasks such as setting up IT infrastructure and implementing an ERP system.

Education

Business IT & Management / Bachelor, Saxion, Enschede

2011 — 2016

HAVO / Secondary school, Waardenborch, Holten

2009 — 2011
